NeuroRehabilitation 2017
June 15-17 • Waltham, MA

Stroke • Concussion • TBI • SCI • Degenerative Neurological Diseases

State-of-the-Art Rehabilitation Strategies and Practices to:
• Accelerate recovery
• Improve clinical skills
• Reduce symptoms
• Advance patient well-being
• Elevate patients to their maximum level of function

Updates, Innovations, and Best Practices for
Physiatrists PTs Neuropsychologists
Neurologists OTs Clinical Psychologists
Psychiatrists SLPs Mental Health Counselors
Internists NPs Clinical Social Workers
Geriatricians PAs Case Managers
Family Practitioners Nurses

Earn up to 15.00 AMA PRA Category 1 Credits™

This educational activity has been submitted for continuing education credits (CEUs) for PTs, OTs, and SLPs

Register at NeuroRehab.HMSCME.com
Dear Colleague,

Patients with stroke, TBI, SCI, and degenerative neurological diseases face significant disruption to so many facets of their lives, and clinicians are left with so many treatment dimensions to consider, that rehabilitation is never simple. These challenges are compounded by the fact that rehabilitation approaches are now in a period of rapid expansion. It’s difficult to stay current with, choose, and use the best options for neurorehabilitation—yet this is key to optimizing patient outcomes.

It’s with these challenges in mind that we are introducing this exciting new program: NeuroRehabilitation 2017. Many of the country’s most experienced and committed neurorehabilitation experts will present practical, cutting-edge clinical interventions to further your expertise in guiding patients to their maximum level of function. Participants will learn of state-of-the-art research and its application to clinical practice in such diverse topics as exercise, pharmacology, technology, wellness, integrative medicine, patient motivation, and caregiver assistance.

Clinicians who provide care for patients with CNS trauma and neurological diseases can rely on this new update for proven practices and take-home tools to heighten your success in effectively and efficiently helping your patients gain the skills that will improve their health and quality of life.

Our goal is to provide an experience that inspires you, advances your knowledge and skills, and arms you with new approaches and ideas to accelerate and enhance your patient outcomes.

We look forward to seeing you in Boston in June.

Ross Zafonte, DO
Mel Glenn, MD
Yelena Bodien, PhD
Course Directors

Ross Zafonte, DO  
Vice President of Medical Affairs, Research and Education, Spaulding Rehabilitation Network  
Chief, Physical Medicine and Rehabilitation, Massachusetts General Hospital  
Chief, Physical Medicine and Rehabilitation, Brigham and Women’s Hospital  
Earle P. and Ida S. Charlton Professor and Chair, Department of Physical Medicine and Rehabilitation, Harvard Medical School

Mel Glenn, MD  
Chief, Brain Injury Division, Department of Physical Medicine and Rehabilitation, Spaulding Rehabilitation Network  
Medical Director, NeuroRestorative (Massachusetts)  
Medical Director, Community Rehab Care  
Associate Professor, Department of Physical Medicine and Rehabilitation, Harvard Medical School

NeuroRehabilitation 2017

Expanded pharmacologic interventions
Advances in concussion management
Early mobilization in the ICU
Wellness interventions
Functional neuroimaging
Neuroendocrine treatment
Sports and exercise
Functional electrical stimulation
Stem cells for SCI
Motivational interviewing
Integrative medicine approaches
Music therapy
Novel and evolving treatment options

Course Description
As neurorehabilitation evolves, it is more challenging for clinicians to maintain state-of-the-art care of their patients. This course will use plenary lectures and smaller breakout sessions, including interactive case-based workshops, to update the audience on medical, psychological, physical, and cognitive approaches to neurorehabilitation. Based on their participation in the course, participants will be able to expand their clinical knowledge and enhance those skills needed to maximize the physical, cognitive, and social function of patients with traumatic brain injury, spinal cord injury, stroke, and neurodegenerative disease. Participants will learn of state-of-the-art research and its application to clinical practice in such diverse topics as exercise, pharmacology, technology, wellness, integrative medicine, patient motivation, and caregiver assistance.

Learning Objectives
Upon completion of this course, participants will be able to:
• Summarize the research evidence base for neurorehabilitation practice.
• Integrate state-of-the-art evidence-based approaches to neurorehabilitation into their care of patients.
• Evaluate advances in research that will lead to future approaches to neurorehabilitation.

Accreditation

PHYSICIANS
The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 15.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PHYSICAL THERAPISTS, SPEECH-LANGUAGE PATHOLOGISTS, and OCCUPATIONAL THERAPISTS
This educational program has been submitted for continuing education credits (CEUs). Please check the course website for updates.

CANADIAN ACCREDITATION
The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

EUROPEAN ACCREDITATION
Through an agreement between the American Medical Association and the European Union of Medical Specialists, physicians may convert AMA PRA Category 1 Credits™ to an equivalent number of European CME Credits® (ECMECs®). Information on the process of converting AMA PRA Category 1 Credits™ to ECMECs® can be found at: www.eaccme.eu.

ABMS/ACGME COMPETENCIES
This course is designed to meet one or more of the following American Board of Medical Specialties and Accreditation Council of Graduate Medical Education competencies: patient care and procedural skills, medical knowledge, and practice-based learning and improvement.

IOM COMPETENCIES
This course is designed to meet one or more of the following Institute of Medicine competencies: provide patient-centered care, and employ evidence-based practice.

12:35 pm Closing Remarks
Mel Glenn, MD

12:45 pm Course Concludes

Program changes/substitutions may be made without notice. To view the most up-to-date version of the course program, please visit the course website.

How to enhance and accelerate recovery with:

- Pharmacologic interventions
- Transcranial magnetic and direct current stimulation
- Early mobilization in the ICU
- Approaches to bone health after SCI
- Chemical denervation procedures
- Neuroendocrine treatment
- Functional electrical stimulation
- Neuromuscular electrical stimulation
- Upper extremity muscle-tendon transfers
- Approaches to ambulation after SCI
- Vestibular rehabilitation
- Visual rehabilitation
- Treatment of hemispatial neglect
- Constraint-induced language therapy
- Treatment of adjustment issues
- Music therapy
- Exercise for people with Parkinson’s disease

New strategies to improve quality of life

- Wellness interventions
- Motivational interviewing
- Alternative medicine approaches
- Adjustment of the caregiver
- Sports and exercise
- Treatment of the post-stroke shoulder
- Addressing sexuality after SCI

Education on evolving treatment options

This program offers attendees the opportunity to learn about the future of treatment options and how and when they will impact patient outcomes:

- Stem cells
- Brain-computer interface
- Functional neuroimaging to communicate with patients with disorders of consciousness
- Changes in the continuum of care
- Harnessing the placebo effect
- Alzheimer’s disease therapies
- Acute SCI treatments

Updates and insights to guide clinical decisions for common, rare, and challenging neurological conditions

- The patient with post-concussion symptoms
- Chronic traumatic encephalopathy
- CNS plasticity
- Aging with SCI
- The young stroke patient
- Social cognition and affective processing in neurodegenerative diseases
- The patient with CNS Lyme disease

DISCLAIMER
CME activities sponsored by Harvard Medical School are offered solely for educational purposes and do not constitute any form of certification of competency. Practitioners should always consult additional sources of information and exercise their best professional judgment before making clinical decisions of any kind.

DISCLOSURE POLICY
Harvard Medical School (HMS) adheres to all ACCME Essential Areas, Standards, and Policies. It is HMS’s policy that those who have influenced the content of a CME activity (e.g., planners, faculty, reviewers, and others) disclose all relevant financial relationships with commercial entities so that HMS may identify and resolve any conflicts of interest prior to the activity. These disclosures will be provided in the activity materials along with disclosure of any commercial support received for the activity. Additionally, faculty members have been instructed to disclose any limitations of data and unlabeled or investigational uses of products during their presentations.

Your tuition includes breakfast each day, morning and afternoon refreshments, buffet lunch on Thursday and Friday, and the course syllabus both online and on flash drive. Parking is free of charge, and free Wi-Fi is provided in the meeting rooms.

REGISTRATION, PAYMENT, CONFIRMATION, and REFUND POLICY
Registrations for Harvard Medical School CME programs are made via our secure online registration system. To register for this course, please visit the course website.

At the end of the registration process, a $5 non-refundable processing fee will be added to your registration, and you will have the choice of paying by check or credit card (Visa, MasterCard, or American Express). If you are paying by check, the online registration system will provide you with instructions and a printable form for remitting your course fees by check. Postal, telephone, fax, and cash-payment registrations are not accepted. Fees shown in USD.

Upon receipt of your paid registration, an email confirmation from the HMS DCE office will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate. Refunds, less an administrative fee of $75, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by postal mail, email, or fax. No refund will be issued should cancellation occur less than two weeks prior. “No shows” are subject to the full course fee and no refunds will be issued once the conference has started.

ACCOMMODATIONS

The Westin Waltham Boston
70 Third Avenue, Waltham, MA 02451
781-290-5600

A limited number of rooms have been reserved at the Westin Waltham Boston until May 12, 2017 for the discounted rate of $199 per night. Please call (781) 290-5600 when making reservations, and be sure to specify that you are enrolled in the course NeuroRehabilitation 2017 to receive the reduced room rate.

Embassy Suites by Hilton Boston Waltham
550 Winter Street, Waltham, MA 02451 • 781-890-6767

A limited number of rooms have been reserved at the Embassy Suites by Hilton Boston Waltham until May 15, 2017 for the discounted rate of $199 per night. Please call (781) 890-6767 when making reservations, and be sure to specify that you are enrolled in the course NeuroRehabilitation 2017 to receive the reduced room rate.

Please do not make non-refundable travel arrangements until you have received an email from our office confirming your paid registration.

VENUE
The Conference Center at Waltham Woods
860 Winter Street • Waltham, MA 02451
781-434-7499

www.conferencecenteratwalthamwoods.com
Situated on the award-winning campus of the Massachusetts Medical Society, Waltham Woods offers excellent and abundant food, ample free parking, and complimentary internet access.
